Lahore School of Economics,
Pakistan

Andrew Gardner
University of Puget
Sound, USA

Froilan Malit
University of
Cambridge, UK

Webinar Objectives

The Covid-19 pandemic has raised several issues relating to migrant conditions. The webinar looks into possible policy options to tackle the challenges of return migration to various sending countries such as India, Pakistan, Philippines, Sri Lanka, Nepal, Bangladesh and others. These issues amongst many others arising out of corona crisis need serious discussion and deliberations at the level of government, academia and civil society. Against this background, the Global Research Forum on Diaspora and Transnationalism (GRFDT), a Delhi based international research think-tank, is organizing an online/webinar panel discussion on the subject. The platform brings together leading international scholars to share their views on Gulf migration during and in the immediate aftermath of the COVID- 19.
